PROFESSIONAL SUMMARY

Motivated MCA graduate with hands-on experience in Full Stack Development through a six-month internship and academic projects. Skilled in developing web applications using Python, Angular, .NET Core, MySQL, and REST APIs. Strong understanding of object-oriented programming, database design, and software development principles. Quick to learn new technologies, adaptable to team environments, and committed to delivering reliable and user-friendly software solutions.

EDUCATION

Master of Computer Applications (MCA)

Graduated: 2025

Vignan's Foundation for Science, Technology & Research | CGPA: 7.33/10

TECHNICAL SKILLS

Python

.NET Core

MySQL

React JS

Angular

RESTful APIs

Object-Oriented Programming (OOP)

Git & GitHub

VS Code

Visual Studio

PROFESSIONAL EXPERIENCE

Full Stack Development Intern

Nov 2025 – May 2026

Inspiredge IT Solutions

- Developed and maintained web application features using Python, Angular, .NET Core, and MySQL.
- Designed backend modules and REST APIs to support application functionality.
- Built responsive user interfaces and implemented client-side validations.
- Developed database tables, executed SQL queries, and performed CRUD operations using MySQL.
- Participated in Agile sprint planning, code reviews, testing, debugging, and issue resolution.
- Collaborated with senior developers to deliver project requirements within planned timelines.

KEY PROJECTS

Customer Relationship Management (CRM) Database System

Technologies: MySQL, SQL, Relational Database Design

- Designed a normalized relational database for managing customer, sales, and transaction information.
- Developed SQL queries and stored procedures for reporting and business data analysis.
- Optimized database performance through indexing and efficient query design.
- Maintained data integrity using primary keys, foreign keys, and relational constraints.

ATM Simulator

Technologies: Python, OOP, Data Structures

- Developed a console-based banking application using Python.
- Implemented secure PIN authentication, balance enquiry, cash withdrawal, and deposit functionalities.
- Maintained transaction history and account information.
- Added account lock functionality after multiple invalid login attempts.

CERTIFICATIONS

- Python – Codegnan Training Institute
- MySQL – Codegnan Training Institute
